

RESEARCH MENTOR TRAINING SPRING 2018

The Institute for Translational Medicine and Therapeutics in partnership with the CHOP Research Institute, announces our annual Spring 2018 training opportunity!

The Training

- Based upon a proven-effective curriculum developed at the University of Wisconsin
- Over 100 faculty at Penn have participated since 2012
- Outstanding evaluations and recommendations for colleagues to participate
- Interactive sessions designed to enhance skills in being an effective mentor
- Opportunity to learn from experienced colleagues
- Focuses on enhancing communication, aligning expectations, valuing diversity, fostering independence, promoting self-efficacy among mentees, and work/life integration
- CME certified course eligible for up to 17 AMA PRA Category 1 Credits™
- No cost to participants
- Co-facilitated by [Frank McGowan, MD](#) and [Emma Meagher, MD](#)

Eligible Participants

- Faculty at the “late” Assistant Professor (final 3 years of appointment) or higher rank
- Actively mentoring research trainees
- Must be able to commit to attendance at all five sessions

Dates

March 5, 19, April 9, 16, and 30 at 12:15 – 2:15 pm in 8030 Maloney, HUP

Apply by February 16

Interested faculty should complete an [application form](#) by Feb 16, 2017.
