

Please be reminded that the BSF allows to submit concurrently to both the regular program, as well as to the NSF-BSF programs, including the same research project. However, if the submissions are similar, or significantly overlap, and both are recommended for funding, only the NSF-BSF program will be funded.

Also, the BSF allows the submission of up to two NSF-BSF applications concurrently, as long as one of them is to a program with no deadline.

The following is a list of the deadlines in the BSF and NSF-BSF programs in the coming months. Please note that the **Directorate of Computer and Information Science and Engineering has moved to a no deadline policy.**
