
Graduate Courses in Health Care Innovation

Fall 2020 Courses (All courses are 1 CU)

September 8–October 19, 2020

The American Health Care System (HCIN 600-001)

Ezekiel J. Emanuel, MD, PhD

Through this course, you will gain skills at adapting workplace policy to the changing national health policy landscape and advocating for health policy change. This course is designed for those who are interested in the national policy context for their workplace.

September 8–October 19, 2020

Evaluating Health Policy and Programs (HCIN 603-001)

Amol S. Navathe, MD, PhD

This course is designed for those who want to study the impact of policy and programmatic changes, and apply course concepts to evaluating—and recommending—real-world policies and programs.

October 27–December 7, 2020

Health Care Operations (HCIN 601-001)

Christian Terwiesch, PhD

This course is designed for those who have been in their workplace long enough to observe and reflect upon procedures, and are interested in process improvement. In this course, you will develop the tools to clarify and implement your ideas.

October 27–December 7, 2020

Translating Ideas Into Outcomes (HCIN 607-001)

Roy Rosin, MBA

This course is designed for those who want to engage in applying state-of-the-art innovation methodology to make a meaningful difference for patients, providers, and health care organizations.

Curious about the Master of Health Care Innovation?

Develop expertise and build a network to advance health care innovation with an online Master's degree from the University of Pennsylvania. HCIN courses may be transferred into the Master of Health Care Innovation. Learn more at improvinghealthcare.net.
