

Call for Applications for Penn/CHOP Fellows

- **Master in Healthcare Quality & Safety**
- **Certificate in Healthcare Quality & Safety**
- **Master of Science in Health Policy Research with a Concentration in Healthcare Quality & Safety**

Improve healthcare right here, right now.

The Penn CHIPS capstone project is a chance to lead crucial change in your workplace, with guidance from experts in quality improvement and patient safety.

Penn CHIPS is pleased to announce the call for applications for several programs open to interested fellows in the area of healthcare quality and patient safety.

The Certificate in Healthcare Quality & Safety is designed for individuals who are interested in acquiring a robust foundation in the science of quality improvement and patient safety.

The Master in Healthcare Quality & Safety is designed for individuals who are interested in pursuing a career focused on quality & safety leadership - locally, regionally or nationally - and desire more in-depth education.

Master of Science in Health Policy Research with a Concentration in Healthcare Quality and Safety (MSHP + HQS Concentration) is a two-year program that combines health services research and policy training with formal and experiential training in quality improvement and patient safety methods. The program will specifically prepare graduates for careers in health services research and health policy related to healthcare improvement in academic, government, and community settings and for leadership positions in healthcare quality and safety operations.

Application Deadline for Fellows is 11/30/2021
