### About the Northeastern Group on Educational Affairs (NEGEA)

The NEGEA is one of four regional groups of the AAMC's Group on Educational Affairs (GEA). Its purpose is to promote excellence in the education of medical students, residents and physicians through the professional development of medical educators. Regional meetings provide a forum for exchanging ideas, learning new strategies and developing plans that may facilitate your own work and the implementation of the NEGEA's mission. Be on the lookout for more information.
